CREATIVE INDUSTRIES PRECINCT

The Creative Industries Precinct is Australia's first site dedicated to creative experimentation and commercial development in the creative industries. It provides a unique opportunity for designers, artists, researchers, educators and entrepreneurs to easily connect and collaborate with others to create new work, develop new ideas and grow the creative industries sector in Queensland.

The Creative Industries Precinct is a destination for local, national and international productions, exhibitions and events which showcases emerging digital and new media work. Interactive exhibition spaces, an experimental black-box theatre, a parade ground and outdoor terraces ideal for multi-media performance all present an expansive program of exhibitions, live performance, screenings, festivals and seminars.

THE CUBE

The Cube is one of the world’s largest digital interactive learning and display spaces dedicated to providing an inspiring, explorative and participatory experience of QUT's Science and Engineering research.

The Cube is the heart of QUT’s new $230 million Science and Engineering Centre at Gardens Point campus. Part science lab, part digital engagement, the Cube will be the hub of scientific exploration for high school students, the QUT community and the wider public.

Soaring across two storeys of the centre, the Cube is designed to support interactive displays of research projects using advanced digital technology, including 14 high-definition projectors, over 40 multi-touch screens and sound technology.
