

Flow 2019

Bather or Hooker 2004

Olympia 2004

PREPARATION (not 100% necessary, but will help you finish)

- Peel label off milk bottle (warm water can help)
- Cut milk bottle bottom off

- Cut the milk bottle down both the shorter sides leaving so you can use the longer middle bits. Then cut lengths of about 1cm x around 15cm*

- *Making sure the length will fit around your stapler comfortably to staple x 2 into paper-chain like links

- Staple the links together x 2 staples (if the stapler doesn't do it perfectly, don't worry & the links do not have to be perfectly the same size, just approximately)

- You need at least **94** links to be 100% ready, but if you don't manage that many it is easily finished later, once you grasp the concept.
- For this artwork there are **190** links
- Today you could get a nice hyperbolic with **94 pre-joined**
